

## Simplicity

**Switch it on and light up your business.**

With an easy-to-use interface and integration with familiar Microsoft software suites like Office™, SharePoint™ and VISIO™, QUAM is just the Business Modeling software solution you need to brighten your outlook.

## Connectivity

**Because your business is on the line.**

QUAM makes the connection between people and processes. By clearly relating human resources to business functions, QUAM helps to eliminate redundancy, lower costs and increase consistency – everything you need to get your business dialed in.

## Scalability

**Just the push you need.** QUAM helps businesses grow up big and strong by giving you the tools to make critical decisions, easing your business' growing pains and making the transition from S to XL seems like child's play.

## Transparency

**It's all becoming clear now.** As your company grows, the ability to see the inner works of your business becomes critical. QUAM brings clarity to your business activities and gives you the real-time visibility and insights to drive your current and future processes, resources and data.

**QUAM – as dynamic as your business.**
